

DESCRIPTION

The PSP 28-047 is a wide-coverage safety lens that provides full protection and panoramic vision. The mono lens is made of tinted polycarbonate and provided with anti-scratch coating (AS) and anti-fog (AF) coating.

These glasses offer 99% UV protection, are long-wearing & comfortable due to the soft ends of the leg and ultra-light weight. This dark tinted model helps improve eye fatigue in moderate to light conditions.

These are safety glasses with a modern look to suit many different face types. This model is also available with clear lenses (PSP 28-046).

Article PSP 28-047 meets the requirements of Directive (EU) 2016/425 and with the general requirements of EN166:2001 and EN172:1994 +A1:2000 +A2:2001 standards.
